Thank you for purchasing this iTop Twist Counter Stand for the iPad2 and new iPad by Villa ProCtrl.

High design, functionality and quality were top of mind when developing this product, as we did not make any concessions in its construction and our choice of materials.

This iPad Counter Stand is made out of high grade Aluminum and DuPont Corian, the solid non-porous material approved for use in specialized environments (including laboratories and hospitals) and high-traffic places. Most importantly, Corian is easy to clean and small surface damage can be sanded out. The frame and support structure is made out of Alumimum, adding to the overall look, while increasing its weight for increased stability.

Reducing the environmental impact has also been a key factor in the development and production of this product. All of the materials used can be recycled, including all paper and the carton, that comply with the international FSC standards.

We are confident that you will enjoy this product and will appreciate our attention to detail.

Thank you for taking the time to read this manual. We recommend that you keep it for future reference.

The Villa ProCtrl team

Important Safety Instructions:

For your own safety, please read the following important instructions carefully in their entirety, before assembling the stand -

1. Read and follow these instructions fully.
2. Keep these instructions.
3. Heed all warnings.
4. Clean only as instructed in this manual.
5. Protect the USB cord from being walked on or pinched or from getting stuck into the stand.
6 Use this stand only with the Apple iPad version 2 or new iPad
7. While we take great care to remove all of the sharp edges from the Aluminum components, please be careful when handling.
8. Avoid injury when moving the stand, as it is heavy.
9. While the stand has been designed for maximum stability, please place it on a level and solid surface, in a location that minimizes the possibility of it being accidentally tipped over. In cases where this is a distinct possibility, please bolt the stand to a desk
10. The Counter stand is for indoor use only!

1 When attaching the Corian head of the iPad Stand to the angled top of the support pole, do not tighten any of the 4 bolts completely, before commencing with the 3 other bolts.

Instead, you must run all 4 bolts down to within one turn of full tightness and then complete the process by tightening each bolt the final turn.

Check all 4 bolts to confirm that they are in tightly.

Velt inserts

- Follow these instructions only when using the iPad 2 and before you place the ipad in the Corian top holder.
- Remove protective foil and stick velt parts as shown in pictures below

Corian top

Most dirt & residue
Use soapy water, ammonia based cleaner (not window cleaner), rinse and wipe completely dry. Commercially available solid surface cleaners, such as Clean EnCounters® will also work well.

Preventing hard water marks
Rinse and wipe completely dry after cleaning; clean up spills before they dry.

Removing hard water marks
Use a cleaner formulated for removing hard water marks such as CLR or Lime-A-Way.

Difficult residue
Spray residue with Deep Cleaner for DuPont Corian® from Stone Care International. (www.stonecare.com) Follow instructions on the bottle. Wash area with soapy water, rinse and wipe completely dry. If residue persists, follow steps below for removing dulling film.

Disinfecting
Occasionally, wipe surface with diluted household bleach (1 part water/1 part bleach). Rinse top thoroughly with water and wipe completely dry.

Removing minor cuts and scratches

Because the solid beauty of Corian® goes all the way through, Corian® surfaces are renewable. You can remove minor cuts and scratches yourself by following these instructions.

- First, wash the area where the scratch is located, following the instructions found in this guide, to remove any film on the surface as this film may clog the abrasive pads. With this surface still wet, start rubbing with the Peach colored side of the cleaning pad. Use a light touch. Pressing too hard may actually leave deeper scratches. Rub over the scratch using a straight line motion. Periodically switch rubbing direction ninety degrees. Rinse pad periodically during this process to remove any built up residue. Be sure all of the scratch is removed.
- Clean top with water and dry thoroughly. Check to see if sanded area blends with rest of top. Please note that sanded area may not perfectly match remainder of top. If necessary, turn pad over and repeat process. Rub over large area to blend in sanding.
- If needed, continue the sanding process using the Aqua colored pad and if necessary, the Gray colored pad until the desired gloss level is achieved.
- Rinse out all pads used and allow them to air dry before putting them away.
- An alternative to your refinishing your countertop, is to contact your Corian® retailer or DuPont to arrange for professional refinishing

Aluminum parts

Daily cleaning:
for light soil, use a clean, soft cloth or sponge and one of the following:
- Mild detergent and water.

Limited Warranty

Villa ProCtrl warrants this product to be free from defects in material and workmanship (subject to the terms set forth below).

Villa ProCtrl will repair or replace this product (at Villa ProCtrl's option) or any defective parts in this product. Warranty periods may vary from country to country. To obtain warranty service, please consult the dealer/reseller from whom you purchased the product and please retain your proof of purchase (in the form of a bill of sale or receipted invoice, which is evidence that the product is within the warranty period). This warranty is invalid if the product was not purchased from a Villa ProCtrl authorized dealer. If you are not satisfied with their response, please contact Villa ProCtrl directly with specific questions or concerns.

Please retain all original packaging, as you will need to ship the product or specific parts of it, in either its original packaging (or packaging affording an equal degree of protection).

This warranty does not cover cosmetic or structural damage due to misuse, improper installation or maintenance, abuse, accident, negligence, modification, attempted repairs by a third party not authorized by Villa ProCtrl or acts of God, of the product or any part of it. Any of the aforementioned will automatically and totally void the offered product warranty.

Further, this Warranty does not cover third party products that are attached or added to this product.

Some countries and U.S. states do not allow the exclusion or limitation of incidental or consequential damages or implied warranties, so the above exclusions may not apply to you. This warranty gives you specific legal rights and you may have other statutory rights, which will vary from country to country and state to state.

For any service, either in or out of warranty, please contact your dealer/reseller.
